ADTIS 2025: Running Orc <https://www.vle.cam.ac.uk> <https://www.cl.cam.ac.uk> 1. Getting started - UoC Zoe Wyatt Submitting your materials what is MMath from Cam dpmms.cam.ac.uk/ zw253/ - 2015-2020: PhD in Mathematics under Pieter Blue at the University of Edinburgh.

A full copy of my CV, including recent talks and conferences, can be found here.

I am an editor at Proceedings of the Royal Society of Edinburgh Section A: Mathematics. Please see this link to make a submission. Research My research lies at the intersection of general relativity, differential geometry and nonlinear PDEs. Concretely, I study analytic properties of solutions to PDEs that have been derived from theories of higher dimensional gravity, string theory, particle physics and cosmology. - Stability of fluids in spacetimes with decelerated expansion, David Fajman, Max Ofner, Todd Oliynyk, Zoe Wyatt. - Relativistic fluids in Cosmological Spacetimes, David Fajman, Max Ofner, Zoe Wyatt.
